

# Design Features of the Silent Beacon Personal Safety Device

We use UL-Certified fire retardant plastic on our panic buttons and our product box is made from fully recyclable cardboard and uses no toxic chemicals.

## Rechargeable Battery

Fully rechargeable and allows you to monitor battery life for added peace of mind.

## Mobility

Free accessory clip allowing for complete mobility.

## Speaker Equipped

A large speaker equipped with noise cancellation microphone for clear communication.

## Silent Alert Mode

With one press, you can disable the sounds and lights to discreetly send for help without anyone knowing.

SHOP NOW

## Multi-color LEDs

Multi-colored LED lights for visual confirmation during alerts, charging and connectivity.

## Built to Last

Water-resistant, UL-certified fire-retardant plastic with a reinforced keychain area keeps the device sturdy and safe, while curved indented buttons help reduce false alerts.

## Reduce False Alerts

Indented buttons help prevent false alerts from occurring.

## Vibration

Vibration functionality to physically allow you to know your alert status.

## Zero Monthly Fees

The Silent Beacon connects to your phone's Bluetooth®, saving you from having to pay any fees or setup costs or mandatory monthly monitoring charges.

## Call Any Phone Number Including 911

Our panic button is the only device on the market that allows you to choose which phone number you want called during an emergency.

## Send Alerts & Your GPS Location

Send your GPS location in real-time via text, email, and push notifications to people who can help you in an emergency.

## Patented Safety Device

Using our patented technology, you can send and receive emergency alerts directly to your Silent Beacon if your phone is out of reach.

## Find your Keys or Device

Find anything your Beacon is attached to quickly thanks to our built-in Bluetooth® tracker.

## Download Our Free Safety App

With one touch you can send text messages, push notifications, email and send voice calls to your any emergency contacts inside the personal Safety App. Best of all there are no mandatory monthly fees and you can download our Silent Beacon Safety App for life alerts for [FREE!](#)

## No Monthly Fees

Uses your smartphone's cellular service to keep you from unnecessary fees!

## Non Emergency Mode

Let loved ones know you are OK with our "Nudge" feature.

## Live Tracking

In alert mode you can send your GPS location to be tracked in real time.

## Customizable Alerts

Type your own messages and choose how you want people notified.

## Multiple Alert Methods

Send alerts through text messages, push notifications and emails.

## Call 911 or Loved Ones

Set the Safety App to call 911, emergency responders or any phone number.

## Lost Device Finder

Use the Beacon as a lost item finder when within Bluetooth® range.

## Know Your Battery Life

The Beacon's battery life can be viewed as well as notify loved ones, when it needs charging.
